

technical data sheet

PennWhite Ltd. Aston Way. Midpoint 18 Business Park. Middlewich. Cheshire. CWIO.0HS

Description

Econolub is a thixotropic lubricant based on a blend of polydimethylsiloxane (silicone) polymers and water.

Applications

Econolub is formulated to reduce cable friction, and therefore the chance of breakage or fowling, during the installation of telecommunication and fibre optic cables in underground ducts.

Product Features

Econolub is a low-cost cable lubricant which can be used for both pulling and blowing cable installation methods. Any excess Econolub can be removed with mild detergent and water.

Method of Use

Econolub can be poured directly onto the cable being installed or it can be applied to the interior of the duct itself.

Product Safety

A Safety Data Sheet compliant with EU 2015/830 is available for Econolub on request. It contains any safe handling guidelines that may be relevant to this product.

Storage, Shelf Life & Packaging

Econolub has a shelf life of 12 months when stored in original and unopened containers between 5°C and 30°C. This product is typically available in 5, 25, and 220 litre containers. Please note that it is sold in kilograms and the actual capacity of a container (in kg) is dependent upon the specific gravity of its contents.

Typical Properties

Appearance: White thixotropic pourable gel

• Viscosity: 2500 – 4500 cP

Please note; these are typical properties only and should NOT be construed or used as a specification for this product.
